

Resilient Cities January Update

30 January 2015

Registration for Resilient Cities 2015 opens soon!

All cities, public and private sector representatives, academics, researchers, practitioners and anyone with a genuine interest in the topic of urban resilience and adaptation to climate change are encouraged to attend the congress.

[Stay tuned for updates](#) on registration to be made available in early February and profit from our discounted early-bird fees.

Diverse contributions from around the globe to shape the congress program

Last year, global experts from over 30 countries and a range of sectors submitted 173 contributions in response to our public call. Among the contributors, several cities from 5 continents directly submitted proposals to present their resilience work and progress, providing a broad regional coverage of adaptation examples. Almost half of contributions have a global focus, aiming at introducing tools, frameworks, measures and best-practices for all cities. We can therefore look forward to a diverse congress program with practical and theoretical components, enhancing learning and inspiring local action!

Resilient Cities Asia-Pacific 2015

Coming up: Resilient Cities Asia-Pacific congress

The first edition of the Resilient Cities Asia-Pacific congress series will be held in Bangkok, one of the most cosmopolitan cities of Asia, **11-13 February 2015**. This will be the first ever Asia-Pacific forum on urban resilience and adaptation to climate change providing a platform for global and regional experts to initiate dialogue, identify solutions and create lasting impact for cities in the region.
