After the congress is before the congress!

We invite you to get in touch and partner with us on the way to Resilient Cities 2015, taking place in Bonn, 8-10 June 2015.

- Do you want to play an active role in our webinar series?
- Do you have new ideas or suggestions for collaboration on the way to Resilient Cities 2015?
- Would you like to showcase your work at the exhibition, run a forum or propose a completely new session format at Resilient Cities 2015?

Contact us at resilient.cities@iclei.org and let's discuss!

Updates and new stories on the blog

Resilient Cities 2014 Blog

Participate and send us
your story!

The [Resilient Cities 2014 live blog](#) features stories from before, during and after the congress as well as news and updates on urban resilience and climate change adaptation.

Find our updates on the front page of the blog and send us your story at resilient.cities@iclei.org!

We will share it with the Resilient Cities community.

Please find our newest blog entries below.

[As floods threaten, Tanzania aims to build a megacity that works](#)

In an article, [Kizito Makoye](#) outlines the master plan of Dar es Salaam aimed at supporting the fast-growing commercial megacity in preparing for climate change. The plan looks ahead to 2036 and proposes the creation of a Metropolitan Development Authority to oversee planning and major infrastructure development, including transportation and utilities...

[Reporting back from Resilient Cities Congress](#)

Adaptation Scotland Manager Anna Beswick writes about her experience at [Resilient Cities 2014](#), finding out about the latest global urban adaptation work and sharing experiences from the work that she is involved within Scotland. She says: "There is no better place to be immersed in all things urban climate resilience related than at the resilient cities congress. It's a three day round the clock networking and information sharing bonanza"...

[Arup's new report reveals health 'triple risk hot spots'](#)

A new report by Arup examines how hot weather affects cities, including the impact on people's health. It follows a [presentation](#) in the session [B2 "New methods and action plans for climate-related heat and health risks"](#) at Resilient Cities 2014, where initial results had been presented. The 'Reducing urban heat risk' report is the result of a collaborative research project...

[Exploring urban planning in the context of climate change](#)

Ksenia Mokrushina, Junior Officer at Low Carbon Cities, ICLEI, reports on an [Urban-LEDS](#) project workshop, which was presented at Resilient Cities 2014. The workshop focused on integrated climate action from a spatial planning perspective. The large turnout revealed a great deal of interest in thinking holistically about local climate change mitigation and adaptation, and learning how urban planning can help achieve this...
