

Resilient Cities Update

1 October 2014

Call for Contributions opens today!

Submissions are now being accepted for Resilient Cities 2015!

The [call for contributions](#) is now open until the **deadline of 1 December 2014**.

The [themes for Resilient Cities 2015](#) will feature a new focus on areas such as ICT solutions, resilient public health systems, and integrated climate actions. It will also continue to explore the latest developments in areas including urban risk, data for resilience, planning and policy, ecosystem-based adaptation, building and infrastructure, financing, and community-based adaptation.

Proposals will be accepted for presentations, panels, workshops, posters, Reality Check Workshops, co-events, and alternative formats including **capacity-building trainings**.

Visit the [call for contributions page](#) on our new Resilient Cities 2015 website for more information and to submit your contribution!

Outcomes of Resilient Cities 2014 summarized in the Congress Report

The Resilient Cities 2014 congress report sums up the core discussions and outcomes of the three days. It provides actionable advice for local governments to create more resilient cities, including numerous case studies from cities around the world.

[Download it today](#) to get a detailed overview of the event as it happened and catch up on sessions you missed!

Resilient Cities took place in Bonn, Germany from 29-31 May and focused on a number of key themes such as financing resilience, researcher-practitioner collaboration, data for resilience, and ecosystem-based adaptation, to name just a few.

Proceedings of Resilient Cities 2014 available online

The [proceedings](#) of the 5th Global Forum on Urban Resilience and Adaptation present the latest research results and case studies on urban resilience from cities in the Global North and Global South.

The papers explore key congress themes in more depth, including multi-stakeholder collaboration, participatory planning, resilient infrastructure design, social vulnerability assessment, and local capacity building. The authors are experts in their respective fields, including local government representatives.

Hosts:

**NACHHALTIGKEIT.
SUSTAINABILITY.
DURABILITÉ.
BONN.**
