

The day will be organized around two work streams: one on urban resilience and the other on buildings in cities. Each work stream will consist of two sections: a **showcase event** exhibiting selected relevant initiatives and a **dialogue segment** on cross-cutting themes. Outcomes will be presented at the High Level Action Day on **November 17th**. These sessions will take place in the official UNFCCC "Blue Zone". For more information on the urban resilience thematic day and other ICLEI events at COP22, click [here](#).

Reminder: Call for Contributions open until 1 December!

Resilient Cities 2017 will take place **4 - 6 May 2017** in Bonn, Germany ahead of the annual UNFCCC Bonn talks, and will include sessions on financing resilience, risk transfer and climate insurance solutions, adaptation and DRR planning and policy, and mechanisms for measuring, reporting and accelerating local resilience action. Congress themes will also include current and pressing issues such as data security, climate-related health risks, and forced migration. For information on congress themes and formats, click [here](#).

Our public Call for Contributions is open through **1 December**. Don't miss the chance to shape this global event on urban resilience!

Save the date: Open European Day 2017

The fourth edition of the Open European Day will take place on **3 May 2017**, back-to-back with Resilient Cities 2017. Mark this date in your calendar! More information coming up soon on the [Resilient Cities website](#).

Check out new CEADIR Series webinar: Climate Change Adaptation Planning for Low-Income Urban Populations

The latest webinar of the [CEADIR Series](#) on September 20, 2016 focused on climate change adaptation planning for low-income urban populations in developing countries. [Click here for the webcast](#). Resilient Cities 2016 webinar series returns soon. Look out for the announcement, to be made available [on our webpage](#).

Resilient Cities Proceedings and Background Papers

The congress proceedings and background papers present the latest research results and case studies on urban resilience from cities in the Global North and Global South. The papers explore key congress themes in depth - including researcher-practitioner collaboration, financing resilience, risk assessment tools, and strengthening energy systems for urban resilience - and constitute a valuable urban resilience resource. [Click here](#) to read.

Resilient Cities book series: Call for papers

The [RESURBE International Program on Urban Resilience](#), an initiative from RECNET, is calling for papers (articles and case studies) for a series of books on "**Resilient Cities. Re-thinking Urban Transformation.**"

The deadline for submissions is **1 November**. More information [here](#).
