Resilient Cities Proceedings and Background Papers

The congress proceedings and background papers present the latest research results and case studies on urban resilience from cities in the Global North and Global South. The papers explore key congress themes in depth - including researcher-practitioner collaboration, financing resilience, risk assessment tools, and strengthening energy systems for urban resilience - and constitute a valuable urban resilience resource. [Click here](#) to read.

Resilient Cities book series: Call for papers

The [RESURBE International Program on Urban Resilience](#), an initiative from RECNET, is calling for papers (articles and case studies) for a series of books on "**Resilient Cities. Re-thinking Urban Transformation.**"

The deadline for submissions is **1 November**. More information [here](#).
